Production Tolerances

The AQS-500 series Neon Flex product is manufactured in a continuous extrusion process and then manually terminated with IP68 overmolded cable entry points. Production tolerances need to be accounted for during site preparation.

- < 1M ±5mm
- < 5M Length ±10mm
- < 10M Length ±15mm
- < 20M ± 20mm

Refer to installation guide when planning your project.

For wiring diagrams please refer to the aqualux website: www.aqualux.com.au / Support / Downloads / Wiring Diagrams

As with all IP68 products, the ingress protection is determined by the quality of the cable joins and installation.
